We Have the Right Plan for your Home and your Budget.

Dirt & Neglect are the top causes of heating and cooling system inefficiency and failure. To ensure energy efficient system operation, it is important to perform routine maintenance. Proper maintenance by a qualified technician is one of the most important steps you can take to prevent future problems.
(www.energystar.gov)

Key Benefits Of Regular Maintenance Include:

- Prolonged equipment efficiency.
- Promotes healthy clean air
- Supports lower utility costs
- Guards against unexpected failures
- Prolongs equipment life

100% SATISFACTION GUARANTEED

- Your technician will be professional, uniformed and qualified to work on your equipment.
- We will take extra ordinary care in your home.
- We will provide you with a written quote for repairs before we start any work.
- Our technicians will follow a stringent quality assurance task list to ensure a complete and thorough service each and every time.

When Quality Matters!

Mike's Heating & Air Conditioning is focused on providing the highest level of service with a focus on earning referrals from our satisfied clients.

The most expensive investment in your home is in the care of responsible experts who set the standard of excellence for our industry by following National Standards for service and training.

Our maintenance plans following Energy Star Recommendations along with National Standards for residential maintenance.

Serving Picayune and the surrounding communities since 2007.

We look forward to serving you!
